

## **Thunderstorm**

**Cool breezes on the heavy air,  
The sudden darkening of sky,  
Rolling clouds of white and gray,  
Make night o'er take the day.**

**Lightning separates the sky,  
Rain pours out in glassy cool,  
All is fresh and green again,  
With plants bedecked in heavenly jewel.**

**Sunlight breaks the western sky,  
Distant rumbles end at last,  
The earth is peaceful once again  
A thunderstorm has passed.**
